The Mission of the Missouri Main Street Connection is to provide communities with the knowledge and tools to economically and physically revitalize their downtowns.

The Missouri Main Street Connection works to ensure that the downtown districts in Missouri's cities and towns remain essential elements to their sense of community, their cultural heritage and to the state's economy. Downtown revitalization is encouraged through economic development *within the context of historic preservation*. The primary purpose is to ensure the long-term success of the downtown by creating, educating, training and empowering a comprehensive, professional, volunteer-based downtown revitalization organization.
